Very quiet, halter trained bull throwing excellent offspring in a tight calving pattern. A real gentleman in the field and the shed. Reluctantly for sale as we now have too many of his daughters coming into the herd and can't run two Sussex bulls. FABBL registered and can be blood tested on request. 12 month TB test area, annual test due end April/early May. Never a case of TB in the herd.

We are also looking for this bull's replacement!
