HERD CAPITATION 2020

(Pre-payment system for the registration of calves)

The Society's Capitation Scheme was introduced to enable the Society to obtain the income for the registration of cattle at the beginning of each financial year – this being one of the main sources of income for the Society and enabling the Society to budget for the remainder of the year.

BIRTH RETURNS: Acceptable formats: Standard Society Birth Return Forms, Printout containing full information on calves. Forms may be returned by email or post.

All heifer calves listed on Birth Returns will automatically be entered for registration in the Society Herd Book and named according to the dam line. This does not prejudice the prerogative of the breeder to withhold registration and such a decision must be notified to the Office prior to the compilation of the current Herd Book.

Bull registrations should be applied for separately, subject to current Society Rules.

RETURN OF ALL BREEDING FEMALES DUE TO CALVE IN 2020

[Applies to all cows due to calve animals eligible for registration in all sections of the Society's Herd Book]
