CALF REGISTRATION/CAPITATION 2025

(Pre-payment system for the registration of calves)

The Society's Capitation Scheme was introduced to enable the Society to obtain the income for the registration of cattle at the beginning of each financial year – this being one of the main sources of income for the Society and enabling the Society to budget for the remainder of the year.

BIRTH RETURNS: These should be sent via the online system accessed through our website.
If you are unable to use the online service please contact the Office for assistance.

HOT TIP: Enter on our website as you do your BCMS entries as calves are born.

All heifer calves listed on Birth Returns will automatically be entered for registration in the Society Herd Book and named according to the dam line. Male calves will be recorded in the database. This does not prejudice the prerogative of the breeder to withhold registration and such a decision must be notified to the Office prior to the compilation of the current Herd Book.

**Registration certificates will be sent by Email unless a request for paper copies by post is received.
Registration certificates will not be sent out until payment in full has been received.**

The following details will be included in the Breeders Directory so please make sure they are correct.
